**Director's Report**

The director presents his report and financial statements for the year ended 31 December 2016.

**Principal activities**

The company's principal activity during the year continued to be that of sale of wood and flooring construction materials and sanitary equipment

**Directors**

The following persons served as directors during the year:

Mr Guren Zhou

Mr Alan Taylor (resigned 07.03.16)

**Disclosure of information to auditors**

The director confirms that:

- so far as he is aware, there is no relevant audit information of which the company's auditor is unaware; and
- he has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the company's auditor is aware of that information.

This report was approved by the board on 30 September 2017 and signed on its behalf.

Mr Guren Zhou

Director

## **Anbo International Ltd**

### **Statement of Director's Responsibilities**

The director is responsible for preparing the report and financial statements in accordance with applicable law and regulations.

Company law requires the director to prepare financial statements for each financial year. Under that law the director has elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (Financial Reporting Standard 102 and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the director is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The director is responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable him to ensure that the financial statements comply with the Companies Act 2006. He is also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

**Anbo International Ltd**  
**Strategic Report**  
**for the year ended 31 December 2016**

Anbo - We Love What We Do

2016 has been an exciting but challenging year for us. After completing the acquisition of 20 retail stores in early 2016, we are proud to become the biggest independent flooring retailer in the United Kingdom, as well as maintaining our traditional business, being a major distributor of flooring products to other retailers in the UK.

Our biggest achievement in 2016 was being able to successfully consolidate our newly added retail arm into our existing operation. At a glance:

<b>Comparison</b>	<b>2016</b>	<b>2015</b>
Number of retail stores	<b>20</b>	0
Number of staff	<b>76</b>	12
Number of products	<b>1,270</b>	110
Number of distribution centre	<b>3</b>	1
Number of transactions	<b>36,000</b>	7,500

Our retail arm is trading under the brand of Flooring Republic, providing a one-stop, easy and happy shopping experience to the UK consumer.

Been a major UK distributor in the flooring market since 2007, we understand the challenge that retailers are facing as well as the requirement and expectations from UK consumer. The whole journey from considering buying a new floor to have it installed in customers' home can be quite difficult and painful. Our goal is to provide the ultimate answer.

Traditionally, carpet sales has the biggest percentage share of the UK flooring market, followed by laminate flooring and vinyl flooring. However, through market research, we are fully aware of the changes in the trend. Wooden flooring is becoming more and more popular. Anbo's root can be traced back to a wooden flooring manufacturer in China with a deep history since 1989. With this unique strength, we are already ahead of the game. Throughout 2016, wooden flooring sales contribute 38.4% in turnover to UK flooring market, and we believe this number will continue to increase.

#### Financial Review

We finished our year with a total turnover of 9,724,315 a 25% increase compared to 2015 (7,749,439) nine months accounts. The Trading margins were 55.15% and the company's gross profit margin has increased by 32.25% compared to the previous year (2015:22.90%) reflecting a change in the business model from being one of purely wholesale trade to becoming a retailer to the public. However, with the help of new retail arm, our gross margin has increased significantly.

Due to the operating cost being relatively high plus some unexpected cost increase, the net profit of £572,046 has not been as good as we expected. Nevertheless, we strongly believe that with the continuing effort in our restructure process, the operating cost will continue to be reduced.

<b>Comparison</b>	<b>2016</b>	<b>2015</b>
Turnover	<b>9,724,315</b>	7,749,439
Gross Profit	<b>5,362,745</b>	1,774,545
Operation Cost	<b>-4,809,945</b>	-1,432,934
Net Profit Before Tax	<b>572,046</b>	341,611

## Outlook in 2017

### Area of focus

1. Continue restructure process to reduce operation cost
2. Strategically increase store numbers to 30 locations to benefit from economies of scale
3. Launch new marketing campaign, focus on brand identity and core value
4. Launch new flooring range, stay ahead of the trend
5. Improving e-commerce/online presence, launch online store

### Summary:

We are pleased with what we have achieved in 2016 after a major acquisition and we can see the potential in this business. The market is still full of uncertainties, and lack of confidence from the UK consumer. However, Anbo International Ltd and Flooring Republic will continue focus on the areas that will bring the confidence to the UK consumer.

### Bigger and Better Choice

Cost effective products

Fantastic Service

Amazing wood flooring products

Easy and friendly shopping experience

Available both Online and Offline

Anbo - We love what we do!

This report was approved by the board on 30 September 2017 and signed on its behalf.

Mr Guren Zhou

Director

## **Anbo International Ltd**

### **Independent auditor's report**

#### **to the member of Anbo International Ltd**

#### **Opinion**

We have audited the financial statements of Anbo International Ltd for the year ended 31 December 2016 which comprise the Income Statement, the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Changes in Equity, the Statement of Cash Flows and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2016 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
- have been prepared in accordance with the requirements of the Companies Act 2006.

#### **Basis of opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Conclusions relating to going concern**

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

#### **Other information**

The other information comprises the information included in the report and financial statements, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

#### **Opinions on other matters prescribed by the Companies Act 2006**

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

#### **Matters on which we are required to report by exception**

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or

### **Responsibilities of directors**

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at [www.frc.org.uk/auditorsresponsibilities](http://www.frc.org.uk/auditorsresponsibilities). This description forms part of our auditor's report.

## Anbo International Ltd

### Notes to the Accounts

#### for the year ended 31 December 2016

#### 1 Summary of significant accounting policies

##### ***Basis of preparation***

The financial statements have been prepared under the historical cost convention and in accordance with FRS 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland.

##### ***Turnover***

Turnover is measured at the fair value of the consideration received or receivable, net of discounts and value added taxes. Turnover includes revenue earned from the sale of goods and from the rendering of services. Turnover from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have transferred to the buyer. Turnover from the rendering of services is recognised by reference to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs.

##### ***Intangible fixed assets***

Intangible fixed assets are measured at cost less accumulative amortisation and any accumulative impairment losses.

##### ***Tangible fixed assets***

Tangible fixed assets are measured at cost less accumulative depreciation and any accumulative impairment losses. Depreciation is provided on all tangible fixed assets, other than freehold land, at rates calculated to write off the cost, less estimated residual value, of each asset evenly over its expected useful life, as follows:

Leasehold land and buildings	over the lease term
Plant and machinery	over 5 years
Fixtures, fittings, tools and equipment	reducing balance 20%

##### ***Stocks***

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the first in first out method. The carrying amount of stock sold is recognised as an expense in the period in which the related revenue is recognised.

##### ***Debtors***

Short term debtors are measured at transaction price (which is usually the invoice price), less any impairment losses for bad and doubtful debts. Loans and other financial assets are initially recognised at transaction price including any transaction costs and subsequently measured at amortised cost determined using the effective interest method, less any impairment losses for bad and doubtful debts.

##### ***Creditors***

Short term creditors are measured at transaction price (which is usually the invoice price). Loans and other financial liabilities are initially recognised at transaction price net of any transaction costs and subsequently measured at amortised cost determined using the effective interest method.

**Taxation**

A current tax liability is recognised for the tax payable on the taxable profit of the current and past periods. A current tax asset is recognised in respect of a tax loss that can be carried back to recover tax paid in a previous period. Deferred tax is recognised in respect of all timing differences between the recognition of income and expenses in the financial statements and their inclusion in tax assessments. Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference, except for revalued land and investment property where the tax rate that applies to the sale of the asset is used. Current and deferred tax assets and liabilities are not discounted.

**Provisions**

Provisions (ie liabilities of uncertain timing or amount) are recognised when there is an obligation at the reporting date as a result of a past event, it is probable that economic benefit will be transferred to settle the obligation and the amount of the obligation can be estimated reliably.

**Foreign currency translation**

Transactions in foreign currencies are initially recognised at the rate of exchange ruling at the date of the transaction.

At the end of each reporting period foreign currency monetary items are translated at the closing rate of exchange. Non-monetary items that are measured at historical cost are translated at the rate ruling at the date of the transaction. All differences are charged to profit or loss.

**Leased assets**

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. All other leases are classified as operating leases. The rights of use and obligations under finance leases are initially recognised as assets and liabilities at amounts equal to the fair value of the leased assets or, if lower, the present value of the minimum lease payments. Minimum lease payments are apportioned between the finance charge and the reduction in the outstanding liability using the effective interest rate method. The finance charge is allocated to each period during the lease so as to produce a constant periodic rate of interest on the remaining balance of the liability. Leased assets are depreciated in accordance with the company's policy for tangible fixed assets. If there is no reasonable certainty that ownership will be obtained at the end of the lease term, the asset is depreciated over the lower of the lease term and its useful life. Operating lease payments are recognised as an expense on a straight line basis over the lease term.

**Pensions**

Contributions to defined contribution plans are expensed in the period to which they relate.

<b>2 Analysis of turnover</b>	<b>2016</b>	<b>2015</b>
